Player Details

Detailed information for a player

Changelog [\(show\)](#)

Input

The following input parameters exist:

Simple	Detailed
--------	----------

Only available inputs in this file version are shown.

required file = **playerdetails**

optional version = 3.2 ▼

optional **actionType** = view {default} ▼
Indicates what type of action the page should perform.

view {default}
Shows information for the player with the corresponding playerId.

placeBid
Places a bid on the player and then shows all the information, for Supporters only. (Requires "place_bid" scope.)

required **playerID** : **unsigned Integer**
The player to get information for.

optional **includeMatchInfo** : **Boolean** {Default:false}
Set it to 'true' to get LastMatch Container.

required_1 **teamId** : **unsigned Integer**
Team id of the team placing the bid. Must refer to a senior team managed by requesting user.

optional **bidAmount** : **Money**
Bid amount in SEK.

optional **maxBidAmount** : **Money**
Maximum bid amount in SEK (autobid).

required_1: Input teamId is required for actionType=placeBid. Only for version 2.5 bidAmount is also required.

Output

Here you can see the output, based on the values of the input parameters and selected action type.

Simple	Detailed	XML	Example
--------	----------	-----	---------

All containers/elements for the selected version and action type are shown.

```
<?xml version="1.0" encoding="utf-8"?>
<HattrickData>
  <UserSupporterTier> : supporterTier
    Indicates which Supporter package the fetching user has, or empty if not a Supporter.
  </UserSupporterTier>
  <Player>
    <PlayerID> : unsigned Integer
      The globally unique playerId.
    </PlayerID>
    <FirstName> : String
      Player's FirstName name.
    </FirstName>
    <NickName> : String
      Player's NickName name.
    </NickName>

    The total number of hatricks throughout this player's career. If a match is running this value is not available
</CareerHatricks>
<LeagueGoals> : unsigned Integer
    The number of goals in the league this season. If a match is running this value is not available
</LeagueGoals>
<CupGoals Available='Boolean'> : unsigned Integer
    The number of goals in the cup this season.
</CupGoals>
<FriendliesGoals> : unsigned Integer
    The number of goals in friendlies this season. If a match is running this value is not available
</FriendliesGoals>

```

```

<MatchesCurrentTeam> : unsigned Integer
    The total number of matches for current team. If a match is running this value is not available
</MatchesCurrentTeam>
<GoalsCurrentTeam> : unsigned Integer
    The number of goals in friendlies this season. If a match is running this value is not available
</GoalsCurrentTeam>
<AssistsCurrentTeam> : unsigned Integer
    The number of assists for the current team.
</AssistsCurrentTeam>
<CareerAssists> : unsigned Integer
    The number of assists through out the whole player's career
</CareerAssists>
<NationalTeamID> : unsigned Integer\*
    If the player is enrolled on a national team, this is that national team's ID.
</NationalTeamID>
<NationalTeamName> : String\*
    If the player is enrolled on a national team, this is that national team's name.
</NationalTeamName>
<TransferListed> : Boolean
    Is the player on transfer list?
</TransferListed>
- <TransferDetails>
    <AskingPrice> : Money
        The original asking price.
    </AskingPrice>
    <Deadline> : DateTime
        The transfer deadline. Can be even a few hours in the past.
    </Deadline>
    <HighestBid> : Money
        The highest bid made for the player so far. Returns 0 if no bids have been made.
    </HighestBid>
    <MaxBid> : Money
        The maximum bid (autobid) set by the user. Not shown if not set.
    </MaxBid>
    - <BidderTeam>
        <TeamID> : unsigned Integer
            The globally unique TeamID.
        </TeamID>
        <TeamName> : String
            The full team name.
        </TeamName>
    </BidderTeam>
    </TransferDetails>
- <LastMatch>
    <Date> : DateTime
        Date of last played match.
    </Date>
    <MatchId> : unsigned Integer
        Id of the last played match.
    </MatchId>
    <PositionCode> : MatchRoleID
        Played position in the last match.
    </PositionCode>
    <PlayedMinutes> : unsigned Integer
        Minutes played in the last match.
    </PlayedMinutes>
    <Rating> : Float
        The players average rating in the game.
    </Rating>
    <RatingEndOfGame> : Float
        The players rating at the end of the game.
    </RatingEndOfGame>
</LastMatch>
</Player>
</HattrickData>
